*The new year stands before us,
like a chapter in a book, waiting to be written.*

New Year, new YOU! Creating a New Year's resolution is a great way to start the New Year, almost like hitting the "reset" button. You get to set new goals, or revisit old ones, and determine how you want to tackle them. Coming up with resolutions forces us to reflect on our actions during the past year. When you decide to make a resolution, you are deciding that you need to change something about yourself. This self-reflection is very important for everyone, as it helps in refining one's personality. This New Year, I urge you all to challenge yourselves by reflecting on the past year committing to New Year resolutions. Doing this will provide clarity of goals, direction for the future and prepare you for upcoming opportunities. With time as you fulfill these resolutions you will feel good for keeping up with your commitments. So, vow to make improvements to your life and hit the milestones which are sure to enrich your life for better.

Here's wishing you all a **FABULOUS 2023!**

“Celebrate Endings for they precede new beginnings.”

The school has always lived up to its vision of bringing out hidden, unlimited, in-born talent and potential, joyfully in every child to the maximum through a rich activity-based curriculum. For a child, play is the most joyful experience and therefore sports form an integral part of the school routine. Besides this, physical activities promote both physical and mental well-being, which is the need of the hour. So, this New Year take a resolution to make overall fitness your priority and see the balance and magic it creates in your life.

Best Wishes for a Healthy and Happy 2023.
