FROM CHAIRPERSON'S DESK

"There are no secrets to success. It is the result of preparation, hard work, and learning from failure." - **General Colin Powell**

As exams are at the door step, I am writing this to all the parents so that they can help their children get through the exams without any stress or pressure. We have to make our children understand that exams teach us lot of things and give training to various things like punctuality, writing skills, timing sense, expressing our thoughts and opinions. Without exam, it is very hard to find out the level of understanding and the skills of an individual student. It's important to get a good night's sleep before an exam. So discourage your child from staying up late to cram. And make sure, he or she eats a good breakfast on the morning of the exam. Throughout the time, encourage and support your ward during these times. Lastly, I would like to give a message to all my dear students that - "The great future belongs to those who have strong vision and determination. And it doesn't matter where are you now! Starting well and finishing strong is all that matters. You may encounter many defeats but you must not be defeated. In fact, it may be necessary to encounter the defeats, so you can know who you are, what you can rise from, how you can still come out of. Wishing all the best for your upcoming exams!!!"

Study Well!! Do Well!! Keep Smiling Always!!!

PRINCIPAL'S MESSAGE

"To succeed in life and achieve results, you must understand and master three mighty forces – desire, belief and expectation." - **Dr. APJ Abdul Kalam**

Dear students, as you prepare to appear for the Examinations (home as well as board), this is what I have to say. The next few days are going to be crucial for all of you. All your hard work is about to pay off. Stay focused and do your best. Believe in yourself. No need to be nervous, no need to be scared. Keep a positive attitude. Just stay confident and concentrate. Give your best and success shall be yours. An exam is not only a test of your academic knowledge; it is a test of your calmness, stability and positive attitude. "Remember good things come to people who wait, but better things come to those who go out and get them." Wishing you success in your exams. May good luck be in your favour and your preparation will bring fantastic outcomes.

TIPS OF EXAMINATION

- 1) **Stick to a Set Schedule**-Getting into a fixed habit of studying will help you improve your concentration and mental stamina over time.
- 2) **Schedule Your Studies in Smaller Increments Over a Long Period of Time**-This way you'll avoid both burning out your mental energy and being stuck, cramming for hours and hours at a time the night before the test/ Exam.
- 3) **Stick to the Same Study Spaces**-It is helpful to have one or two dedicated locations for schoolwork. (learning / Practising)
- 4) **Teach the Material to Someone Else**-Teaching someone else is a great way to distill your thoughts and summarize the information you've been studying.
- 5) **Make Your Own Diagrams, Formula Sheets, and Charts**-For Maths and science classes, you may want to make yourself a formula sheet in addition to making flashcards. To help you to remember your science processes, create your own diagrams.
- 6) **Practice Good Study Hygiene**-Make Sure That You DON'T Study In or On Your Bed.
