Principal's Message

Dr. Mahima
Principal

It is rightly said that "The whole purpose of education is to teach the child to think and not what to think". We at **THE BAPTIST CONVENT SCHOOL** believe that this is the fundamental truth and it has always been the endeavour of the school to instill right values in its students so that they develop a holistic personality and are ready to take on the challenges head on once they step out of the gates of the school. "We have set out on an elevating and stimulative journey with the aim of providing our children an exclusive learning experience by teaching them to march ahead with positive attitude, skill, confidence, sensitivity and responsibility. The unmatched and impressive heights of glory at which our school stands today bears testimony to the fact the school is fiercely committed to pursue excellence in all the fields, be it in academia, sports, ethics or aesthetics. In this contemporary world, it is of supreme importance that we teach our children to be competent enough to stand tall amongst others with their extraordinary skills and come out victorious. We emanate and sprinkle an atmosphere where each child receives love, dignity and acceptance.

Don't wait for the stars to align, reach up and rearrange them the way you want.... create your own constellation.

It's a time to celebrate the triumph of light over darkness, knowledge over ignorance, and good over evil. Catering knowledge to the seekers is the prime motive of our school. Students are capable of self-direction and can develop an independent, proactive approach to their studies therefore we encourage students to develop independent learning skills and take responsibility for their learning, both in terms of what they learn and how they learn. This aids in creating world citizens with an independent and global approach.
